## ✓ COMPANY

We believe in firms and we consider them as a crucial tool for the realisation of any project. Our multidisciplinary training path allows us to be able to face with competence any technical problem linked to the legal entity, taking notice of the global overview on the entire cycle of life of the body and on the potential consequences of every single choice.

## ✓ EFFICIENCY

We offer a valid support on a strategic and technical-juridical level customised for the clients in all the evolutionary phases of their professional and personal life. The strictly personal relationship with the client, the quick and precise synergy with our colleagues coming from different professional fields are the characterising elements of our activity, with the aim of giving a punctual and exclusive legal protection both in the extra judicial and in the judicial field.

## ✓ RESEARCH

The dialogue and the collaboration with the academic field has been continuously carried on even after our graduation. Our studying, in-depth reading and updating activities have been carried on during the years together with our professional experience. This has allowed us to be able to match our cross knowledge in the different fields of the law, aimed at the exclusive service of the business world.

## Lawyer Alessio Gennari

---

He graduated at the University of Pavia in 2002 with a dissertation in Commercial Law. Afterward he got a degree at the Specialisation School for legal professions (Second Cycle Master Degree) at the same university and at the Luigi Bocconi University, where he won a research Ph.D scholarship in Law Business and Commerce.

As well as taking part in various conferences as a lecturer, the lawyer has attended the Commercial Law Department of the Queen Mary University and the institute of advanced legal studies of London as a researcher, taking a deep and comparative analysis of the company responsibilities, the managers and their relationships with the partners and the society.

His Ph.D dissertation in Compared Penal Commercial Law have examined the crisis of the companies and the possible penal responsibilities of the administrators, the liquidators, the attestant bodies and the statutory auditors in the negotiation procedures for the resolution of the crisis itself. The lawyer is still currently working in the academic field, pursuing his research activity.

## “Rovescio Del Diritto”

---

“ Iddio creò l’uomo a propria immagine e somiglianza, ma l’uomo non volle essergli da meno: creò, a immagine e somiglianza propria, la persona giuridica.

Le dette un’assemblea ed un consiglio di amministrazione e le disse: questi sono i tuoi organi; l’assemblea è il tuo cervello; vedrai, ascolterai, parlerai con gli occhi, con le orecchie, con la bocca dei tuoi amministratori.

Alla loro creatura gli uomini dettero, se non un’anima, sicuramente un corpo... ☺☺
